Projects

Workflow Automation Platform

Next.js 14, TailwindCSS, Prisma, Clerk, Uploadcare, Neon, React Flow

- Engineered a full-stack automation builder allowing users to create, edit, and manage visual workflows.
- Designed a drag-and-drop editor with real-time canvas interactions, node locking, and mini-map navigation.
- Connected Google Drive, Slack, Notion, and Discord actions using direct API logic without external SDKs.
- Built dynamic toast feedback, user dashboards, credit metering, and light/dark theming support.
- Integrated auth and database using Clerk, Neon and Prisma.

AI-Powered Webinar Sales Platform

Next.js, Clerk, Vapi AI, Stream, OBS, Prisma, Hostinger VPS, Coolify

- Developed a SaaS platform enabling marketers to host AI-assisted webinars with lead capture and sales automation.
 - Created live-stream workflows with OBS integration and real-time attendee tracking using Stream.
 - Implemented AI voice agents (via Vapi AI) for 1:1 sales calls, lead qualification, and follow-ups.
 - Supported dynamic CTAs, breakout rooms with AI agents, chat, and post-webinar recording access.
 - Deployed on Hostinger VPS for production-ready infrastructure, and Clerk for secure auth.
